BRADLEY

For Meade County Commission District 1

"All the residents of Meade County deserve to feel like their ideas matter and that their concerns are being heard. Electing officials who are willing to listen and are focused on meeting the needs of the diverse geographic make up of Meade County while serving on the Board of Commissioners is the first step in getting this accomplished. I plan to work with the other County Commissioners and employees of Meade County to really connect with the residents who they are supposed to be serving," said Bradley.

Thank Yous

Our family is most grateful for the words of encouragement, food, visits and prayers these past three months. It would have been a much longer, difficult road without family, friends and our faith. We pray deeply for Don's "peace of mind" as time passes.

Thank you,
Don & Sally Ehlers
& family

Thank you, family, friends and neighbors for sending a card for our 60th anniversary. Each one is truly special. Also thanks for the phone calls, emails and visits.

Bart & Janice Parsons

Thank you to everyone who donated to the fall and winter food drives for the Country Cupboard Food Pantry. With your help, we can eliminate hunger in our community. Thank you for your generous donations.
Country Cupboard Food Pantry

I am very thankful for all the prayers people gave me. The cards, phone calls, best wishes and food. Thanks to Bill Gottsleben for helping with our cattle through the many months of treatment and to our daughters and grandkids.

Ruth Ann Carstensen

Thank you to family and friends for all the birthday greetings I received by mail, phone or in person! I enjoyed them all.

Dave Calhoon

Thank you to my family and friends for the surprise 75th birthday party they held for me Saturday, February 17th. It was truly a real surprise. Thanks also for the wonderful cards, gifts and emails I received.

Jackson County
2018 ASSESSMENT INFORMATION

The 2018 assessment notices/New construction forms have been mailed out. Any individual owning real property in Jackson County who did not receive an assessment notice for 2018, or has changed their address should notify the Director of Equalization at (605) 837-2424 or stop at the Jackson County Courthouse in the Assessor's office. This year was the 2nd phase of county wide reappraisal, South Jackson was covered, except the town of Wanblee, with that being in the 3 rd phase. The county growth was collected by site visits, new construction forms, and GIS imagery. The Vanguard program was used to enter value, photos, and sketch. The urban areas were rechecked for valuation of lots, with an appraisal study being done, the values in Kadoka were adjusted. If an error is found on your assessment please stop in and see me, before March 15th, we can look it over and make any needed corrections.

This year March 15th is the last day for a written appeal to be filed/postmarked for urban and township areas. Rural areas have until April 3rd being the last day to file for rural and any local coming forward. The 2018 assessments (for taxes payable in 2019) will reflect the change from reassessment, growth and Ag land value decrease.

Agricultural land in South Dakota will continue to be based upon its productivity value, according to soil type. The Department of Revenue and Regulation contracted with the Economics Department of South Dakota State University to produce the "productivity/formula value" or for the productivity valuation system. Which they are again studding for 2019 soil table. This value is the starting point for valuing all agricultural land in the state. The productivity value formula incorporates the gross revenue for Cropland soils which is determined by using an 8 year Olympic average of yields in Jackson County and commodity prices on a state wide basis. The productivity value formula incorporates the gross revenue for Non cropland soils which is determined by using an 8 year Olympic average of cash rents in Jackson County, which is only gathered every 2 years now.

In an 8 year Olympic average, the low and high years are thrown out and the remaining six years are averaged. Each year, the newest year of data is added, the oldest year is discarded and a new Olympic average is calculated. When the productivity method is implemented the correct top dollar (crop or non-crop) is applied to the soil classification (crop or non-crop), regardless of how the landowner chooses to use the land.

In 2018 the 3 rd phase of reappraisal will continue with the Urban areas Kadoka, Wanblee, Belvidere, Interior and Cottonwood. Site visits, new construction or remodel projects for growth in these areas and any growth county wide.

Rosemarie Bennett, CAA
Jackson County Director of Equalization
